

UNBROKEN

Music: Janne Björkroth
Lyrics: Elise Widemark

It was a sunny afternoon
Her name was on the cake
Lots of red balloons
But nobody came

She said: "Mum, don't you worry
everything's alright"
Through her tears it all looks blurry
She's broken inside

As the sun is falling
it echoes in her head
Distant voices laughing
all the things they've said

How to call for help
when nobody hears
How to hide inside her hell
blinded by tears

She keeps on praying:
"Just let me be!"
She keeps on hiding
but no friend seeks

Your weeping heart
is growing stronger
A soul full of dreams
remains unbroken

You're not alone
You're not alone

It hurts deep within
in the silence it screams
It crawls on her skin
and haunts her dreams

Their smiles were always fake
Her tears were always real
Though the heart now breaks
in the end the wound will heal

She keeps on asking:
"Why me?"
She keeps on hiding
but no friend seeks

Your weeping heart
is growing stronger
A soul full of dreams
remains unbroken

You're not alone
You're not alone

I promise you
I've been there too

Beast of my past
you've sealed your fate
I'm free at last
won't waste my hate
I don't forgive you
I won't pretend
I will forget you
Don't call me a friend

Let someone know
You're not alone

I promise you
I've been there too

NO MORE HOLLYWOOD ENDINGS

Music: Janne Björkroth
Lyrics: Elise Widemark

I see strangers
every night in my dreams
locked in dark chambers
Should I know what it means?

Shadows are crawling
on the walls of this cave
while we're sleepwalking
from cradle to grave

When the spectacle swallows the
true story
Where spotlights blind us to the
glory

A tale without a history
crushing echoes of my screams
I'm crawling into tragedy
chasing someone else's dreams

A life without a mystery
Creation of dream factory
Nothing's what it seems
Goodbye Hollywood dreams

I am a sidekick
in the story of my life
pretending that I like it
afraid to close my eyes

No joy in happiness
I'm on my hands and knees
on the edge of madness
on these dead end streets

When the spectacle swallows the
true story
Where spotlights blind us to the
glory

A tale without a history
crushing echoes of my screams
I'm crawling into tragedy
chasing someone else's dreams

A life without a mystery
Creation of dream factory
Nothing's what it seems
Goodbye Hollywood dreams

Kissing in the rain
Stargazing once again
Old clichés still remain but I want
my own endings
No false solutions
No safe illusions
Come along with me, into a real
dream

A tale without a history
crushing echoes of my screams
I'm crawling into tragedy
chasing someone else's dreams

A life without a mystery
Creation of dream factory
Nothing's what it seems
Goodbye Hollywood dreams

EDEN

Music: Joona Björkroth
Lyrics: Joona Björkroth

I see the darkness in your eyes
I feel the spark of life go weaker in your
restless soul
I can hear your fading cries
A relentless wail now going on and on

When the tears are in your eyes
You sing a drunken lullaby
And the weight of the world
Comes crashing on your spine
Now remember what's inside
The warmth that made you smile
And rise up high
Towards the golden sky

Your Eden

Blood is gushing from your palms
Your feeble heart is breaking, your soul
reduced to ash
Pictures racing through your mind
Dearest memories from not so long ago

When the tears are in your eyes
You sing a drunken lullaby
And the weight of the world
Comes crashing on your spine
Now remember what's inside
The warmth that made you smile
And rise up high
Towards the golden sky

Your Eden

When the tears are in your eyes
You sing a drunken lullaby
And the weight of the world
Comes crashing on your spine
Now remember what's inside
The warmth that made you smile
And rise up high
Towards the golden sky

Your Eden

UNFAIRY TALES

Music: Janne Björkroth
Lyrics: Elise Widemark

My dreams and secrets
are no more just mine
ripped on the screens
You're next in the line

Twisted terms of use
in this dark house of cards
for hidden abuse
from cradle to graveyard

Who keeps my memories?
Are they friends or enemies?
We ain't just ones and zeros
but human souls
falling into rabbit holes

What makes us human
is now on sale
Crushed for the sake
of unfairy tales
Where heroes fall
and justice crawls
Is this the end?

Creating memory holes
they steal the rights
of our troubled souls
blinded by blue light

It wasn't a free ride
in this insane loop
Got nowhere to hide
I made a deal with my doom

Who keeps my memories?
Are they friends or enemies?
We ain't just ones and zeros
but human souls
falling into rabbit holes

What makes us human
is now on sale
Crushed for the sake
of unfairy tales
for twisted dreams
for endless greed
We want it back!

Time goes by far too fast
it's hard to see the present and
past
Once freedom was liberty
now liberty is privacy

What makes us human
is now on sale
Crushed for the sake
of unfairy tales
Where heroes fall
and justice crawls
Is this the end?

Crushed for the sake
of unfairy tales
for twisted dreams
for endless greed
We want it back!

PIECE OF ME

Music: Joonas Björkroth
Lyrics: Joonas Björkroth

Hey you, what's going on
The fire is burning hot
No use, can't make this up
We're gonna go and fuck shit up
Going on and on
All shame is gone
You gonna scream and shout it loud
You need
Getting pleased
Got to bleed
Up to speed
Come on

'Cause you want a piece of me
The only thing you ever need
Just a little piece of me
The only thing you ever need
You're burning

Dream on, you crazy fool
Who the fuck do you think you are
Good lord, you need to pray
No one's gonna save you now
Twisting your head
Ripping it to shreds
Your ego undefined
Gonna crush
Gonna grind
Gonna kill
Gonna thrive
I'm a queen

And you want a piece of me
The only thing you ever need
Just a little piece of me
The only thing you ever need
You're burning

And on and on it goes
You need to take it slow
And on and on it goes

You just want a piece of me
The only thing you ever need
Just a little piece of me
The only thing you ever need
You fool
'Cause you want a piece of me
The only thing you ever need
Just a little piece of me
The only thing you ever need
Dream on...

I WISH

Music: Janne Björkroth
Lyrics: Elise Widemark

Underneath the silent skies
all the stars are out of sight
On the empty street
my sorrow and me

Those trees have grown much taller
while I was finding my way
That playground seems smaller
than back in the day

I knew the world I'm from
the future was still to come
I'm coming home
feeling unknown

I wish you could see me now
I think you would be proud
You said one day I would understand
But I'm still waiting for Peter Pan

I wish you could see me now
I think you would be proud
You said one day I would understand
But I just want you to hold my hand

They say I'm a lot like you
Wish you were here too
You didn't see me growing old
Didn't see me getting strong

It's time for words from a sermon

time to say the last goodbyes
time for coffee and bourbon
I just want our lost goodnights

I whisper to the ground:
"Thought you would always be
around"
Wish you were not alone
in the great unknown

I wish you could see me now
I think you would be proud
You said one day I would understand
But I'm still waiting for Peter Pan

I wish you could see me now
I think you would be proud
You said one day I would understand
But I just want you to hold my hand

RAISE YOUR FISTS

Music: Joona Björkroth
Lyrics: Joona Björkroth

With power
We've come so far
Through valleys
And mountains high
Flame eternal burns in your hearts
Hear the call
Raise your fist in to the sky

Rise up you beasts and critters
Wake up from eternal sleep
Time has come to claim your place
In the halls of twilight
Gather your strength and trust your instincts
Bend the earth, move the seas from the way
You're strong, now go and carve your path through aeons

With power
We've come so far
Through valleys
And mountains high
Flame eternal burns in your hearts
Hear the call
Raise your fist in to the sky

A mighty blast, that's what you're craving
Gushing through the storms within
Earthquakes nor tides won't stop you from racing forward
Run wild through peaks and ridges
Break a path through fire and ice
All that you dreamed of are now yours for the taking

With power
We've come so far
Through valleys
And mountains high
Flame eternal burns in your hearts
Now hear the call
Raise your fist in to the sky

No one can stop you...

Against the storm!

"Behold the might of the sea and sky
as they clash in a storm of frozen bitterness
In a whirl of fire he runs through the night
and takes his toll on mankind
He's fierce, he's strong, his will is made of the hardest iron
A Titan, risen from Earth, Wind and Fire, he storms through the night"

With power
We've come so far
Through valleys
And mountains high
Flame eternal burns in your hearts
Hear the call
Raise your fist in to the sky

THE GOLDEN HORDE

Music: Joona Björkroth
Lyrics: Joona Björkroth

Like a ghost in the night without any light
They roam through the steppes and the wilds
A dangerous lot
We are the Golden Horde

A new day is finally breaking
The sun rises up from the east
A terrible lot is assembling
Ready...
Go!

Our arrows they darken the skies
Raining down like on hellfire's eve
We scatter them into the wilds
Pursue...
Kill!
Leave no one alive

Like a ghost in the night without any light
They roam through the steppes and the wilds
A dangerous lot
We are the Golden Horde

Fire and steel

We'll make them kneel
Torching their temples with ease
Unstoppable force
We are the Golden Horde

Faster than northwind we're moving
No tyrant can stand in our way
We ambush from chasms and ravines
Hit...
Run!

A feast for the Gods will be waiting
Spoils will be shared equally
Honor for those who have fallen
Bottoms up!

Like a ghost in the night without any light
They roam through the steppes and the wilds

A dangerous lot
We are the Golden Horde

Fire and steel
We'll make them kneel
Torching their temples with ease
Unstoppable force
We are the Golden Horde

Burn it to the ground!

Like a ghost in the night without any light
They roam through the steppes and the wilds
A dangerous lot
We are the Golden Horde

Fire and steel
We'll make them kneel
Torching their temples with ease
Unstoppable force
We are the Golden Horde

We are the Golden Horde

WORLD ON FIRE

Music: Joona Björkroth & Noora Louhimo
Lyrics: Joona Björkroth

A path to the great unknown
A wiser man's tale
Spinning out of control
I need you right now
Hope and prayers burning insides out
A wish to be with you, my heart
and soul

Take my hand
Let's face the world on fire
A glorious stand
Through most chaotic times
Hold my hand
Let's face the world on fire
You're the one for me
You're all I ever need

Together we're standing tall
Through every stumble
Mending our broken souls
By each other
Love is burning bright, embrace
it now
A tale from lullabies and stories told

Take my hand
Let's face the world on fire
A glorious stand
Through most chaotic times
Hold my hand
Let's face the world on fire
You're the one for me
You're all I ever need

A fate divine, our everlasting fire
It burns so bright, where a thousand
stars align
No fear
No pain
You and me against the rain
Eternal glory unfolding

Take my hand
Let's face the world on fire
A glorious stand
Through most chaotic times
Hold my hand
Let's face the world on fire

You're the one for me
You're all I ever need

BENT AND BROKEN

Music: Joona Björkroth
Lyrics: Joona Björkroth

I see your scars
Your tears
And the pain in your heart
It's killing me
Consuming
My soul and all beyond

You're bent and broken

Come closer now
Hold me
And please keep me warm
So much agony
So much pain
Please save me now

I'm bent and broken

All that you fear is bound inside
You fight
You die
All that despair just makes you blind
You're crushed
By lies

You're bent and broken

I'm bent and broken

MY LAST DREAM

Music: Janne Björkroth
Lyrics: Elise Widemark

Venom keeps on running
through our veins
it keeps on haunting
our mortal remains

We're playing with fire
and the flames grow higher and
higher

This must be my last dream
I see the skies falling
Is this now my last scream?

When city lights
hide all the stars tonight
forever is too far away
In the end
deep darkness will descend
It's not too late, to change our way

Wildfires are dancing
on our graves
Ice sheets are drowning
under the waves

We're filling with poison
it's not too late, we still have choices

This must be my last dream
I see the skies falling
Is this now my last scream?

When city lights
hide all the stars tonight
forever is too far away
In the end
deep darkness will descend
It's not too late, to change our way

It doesn't mean it's fake
'cause you don't like it
It's not a mistake
'cause you don't get it
It doesn't mean it's fake
'cause you don't like it

When city lights
hide all the stars tonight
forever is too far away
In the end
deep darkness will descend
It's not too late, to change our way
